GREAT LAKES AUTOMATION

Manufacturer Product Lines

ABB Drives
Industrial Drives

ABB Industrial Solutions
Industrial Control, Pilot Devices, Disconnects, Circuit Breakers, Motors, and Safety Products

ABB Installation Products
Sta-Kon Connectors, Shrink Tubing, Spiral Wrap, Taylor Panel Duct, and E-Z Code Wire Marking

Axiomtek
Industrial Computers, Industrial Workstations, and Flat Screen Monitors

Basor
Cable Tray Specialist

Bihl+Wiedemann
ASi Gateways, Modules, and Safety Products

Bison
AC & DC Gearmotors

Bircher
Safety Mats, Safety Door Openers, and Safety Forklift Traffic Mats

Cembre
Marking and Label Printers, Cable Management, Terminals, and Tools

Eaton Control and Automation
Industrial Control Components, Pilot Devices, Drives, Disconnects, Circuit Breakers, PLCs, and HMIs

Emerson Automation
PLCs, Operator Interfaces, Distributed I/O, Motion Control, and Software

Fluke
Handheld Meters, Portable Oscilloscopes, Calibrators, and Power Quality Analyzers

Grace Technologies
Interface Solutions, Remote Access Ports, and Predictive Maintenance

Hammond Power Solutions
Control and Distribution Transformers

Hammond Manufacturing
Enclosures, Electronic Transformers, and Outlet Strips

HMS Networks
Digital Panel Meters, Operator Interface, Temperature Controllers, Voltage, Current Monitors Ethernet Gateway Switches, and Networking Components

IDEC
Relays, Power Supplies, PLCs, Pilot Devices, Industrial Control, LED Lighting, and Area Scanners

Leuze Electronic
Photoelectric Proximity Vision Sensors, Safety Products, and Barcode Scanners

Littelfuse
Indicator Fusing, Fuse Blocks, Surge Protection, Motor Protection, and Timers

MTS/Temposonics
Precision Linear Transducers

Olflex/LAPP
Control, VFD, Tray, Robotic, and Servo Cable, Cord Grips, and Conduit

Pepperl+Fuchs
Proximity and Photoelectric Sensors, Intrinsic Safety, Barcode Scanners, and ASi Components

Pizzato
Safety Switches, Safety Relays, Foot Switches, and Limit Switches

Pfannenberg
Climate Control Products

PULS
Power Supplies, DIN Mount AC/DC, DC/DC, IP67, and DC UPS Backup

Rittal
Enclosures, Swing Arm Systems, Climate Control Products, and Ergonomic Workstations

SensoPart
Photoelectric Sensors, Distance Sensors, Vision Sensors, and Inductive Sensors

SICK
Photoelectric and Proximity Sensors, Safety Products, 3D/2D Vision, Barcode Scanners, RFID, LIDAR and Radar Sensors

Techflex
Braided Sleeving, Heat Shrink, and Tubing

TECO-Westinghouse
Motors, Gear Reducers, and Drives

TURCK
Proximity Sensors, Intrinsically Safe, Cordsets, Pressure Flow, Level Control, Relays, and Timers

Werma
Stack Lights, Signal Beacons, Horns, Sirens, Machine Monitoring, and Data Collection

Your Possibility. Our Purpose.

Keep Automation Projects Moving

Better Inventory. Better Outcomes.

Our Vendor Managed Inventory programs are designed around your operation, organizing inventory, establishing practical replenishment processes, and maintaining appropriate stock levels so your team spends less time searching for parts, placing routine orders, or managing excess inventory. The result is a more organized storeroom, greater inventory confidence, and fewer interruptions to maintenance and machine builds.

GLASupply.com/vmi

Build Safety into Every System

Risk Assessments.

Through our partnership with SICK, we connect customers with certified machine safety specialists who identify potential hazards, recommend appropriate risk reduction measures, and support compliance with applicable standards. Great Lakes Automation Supply stays engaged throughout the process, helping customers evaluate recommendations, select the right automation technologies, and implement solutions that support safer, more reliable machine performance.

GLASupply.com/riskassessment

Our Technical Services Group Provides:

- Practical application support for PLC, motion, HMI, sensor, and vision systems
- Help evaluating options and choosing the right solution for the job
- Programming and application guidance when questions come up
- Training and support for the software and hardware your team depends on

Great Lakes Automation Supply helps customers move through automation challenges with confidence. Whether the need is everyday maintenance, a hard-to-source product, or a larger process improvement, we work to find the right path forward with trusted manufacturers, practical expertise, and dependable support that helps reduce downtime, improve safety, and support long-term productivity.
